

# Year 1 News

It has been another busy term in Year 1. The highlight of term three was performing our assembly item 'My Gumpy's Outing' by John Burningham. We were a little bit nervous, but very excited. We had so much fun and loved performing our play!

We look forward to Reading Group activities each day, which is helping to improve our reading. We need to cooperate, communicate and help each other in our small group to complete a variety of reading activities. We are loving this and look forward to Reading Groups each day.

We had a fantastic excursion to the Dolphin Discovery Centre, where we learnt so much about different sea creatures and how we can help to protect our marine environment. After, we enjoyed pizza for lunch and a play at the new Koombana Foreshore Playground. We all had such a fabulous day.

In Digital Technologies, we have been learning to make codes using a Bee-Bot. These very cute robots help us learn how to give directions and also how to create a program. They can be very tricky, but we work with our group members to solve any problems.
