

YEAR 1

Creating fun filled learning to explore things from the past with the 21st century learning is so much fun in Year 1.

The challenge of reaching 100 days of school was reached early in the term. We researched so many different ways that 100 can look..

Developing a variety of Literacy skills allows learners to become creative with resources. Students created games to learn and master spelling, grammar concepts and sight words.

Self paced and differentiated learning creates confidence.

Students listen to a pre recorded passage then scribe what they hear. They are able to stop, rewind and playback as they need.

Learning is so much fun when you can share it with your friends.
