

# Year 2

What a wonderful term we are having in Year 2. We have been learning about Fire Safety in Health, the Past and the Present in HASS, learning all about number lines, adding and subtracting in Maths and lots of new ways to present our information in Digital Technologies.

We have been learning to code using "The Brick" and create our own robot and game.

We read "Possum Magic" and created our own map of Australia, with all the foods Poss ate, in the capital cities of Australia. We then had to program the Bee-Bot to travel the journey, just like the book.
