

# Year 3 News

## What's been happening in Year Three?

In Year 3, we have been discovering about how day and night occur. We have been learning strategies for improving our mental addition abilities and examining the relationship between multiplication and division. We have been learning about the Two Great Commandments of Jesus and ways we can follow them. We had our class liturgy in our classroom and we are looking forward to performing our class assembly item this week. We have started our Religious Education unit on Penance, and are preparing to receive the sacrament of Reconciliation for the first time. We enjoyed the Footy Clinics and have learnt lots of useful skills.
