

Year 4 News

The Year 4 class presented a prayer assembly to the school about Lent.

We have been super-excited this term to receive our own iPads. We have been learning the correct way to handle and care for the iPads. We have also been learning how to use the 'Seesaw' program so that we can share our great work with our families.

In literacy, we are learning to follow the correct genre structure to write procedural texts and recounts. We have been using our 'Bump It Up' wall to help improve our writing.

As an introductory activity to learning how to write a procedural text, we followed instructions on how to make a paper plane. We then followed another set of instructions on how to fly them.

In Maths, we are learning to carry out vertical addition with regrouping. We have also been learning some different strategies to help us when doing mental maths.
