

Fun in Year 4

This term our class excitedly received our own iPads. We soon learnt how to care for our devices, become great digital citizens and some of the creative ways we will use our iPads this year.

We love learning maths through games. Numero is a favourite.

We love writing when there is calm music and the lights have been dimmed.

YEAR FOUR CLASS PURPOSE!
We come to school because we have to learn, we want to make friends, to show respect and have fun.

We created a Class Purpose that helps to drive our collaboration and communication within the classroom.

In Art we have been learning about the Colour Wheel and have investigated Warm and Cool colours. Our green monochrome rainforest vegetation paintings, look amazing.

The term has been busy with the Year 4 class presenting the first Prayer Assembly this year, and they are now busily preparing for their class assembly.
