

## YEAR FIVE: TERM ONE – 2021

What a quick first term we had in Year Five. However, we have packed in a lot and are very proud of all the students. **The Year Five's** have been lucky to get their own iPads this year that are charged at school. They have shown great responsibility as they have used their devices to create and publish writing, record Virtue Awards for Religion, listen to Reading and complete online independent inquiry.

Sport has included a Basketball Clinic where the class enjoyed learning new skills. Exhausted and red faces were the result of so much energy that was put into the Fun Run. A super effort made by all. A visit from Scitech, World of Fun Maths and a trip to watch Matilda rounded off some fun visits.

We have travelled through many portals while learning how to write portal narratives **and listening to 'The Lion, the Witch and the Wardrobe.'**

Year Five have begun to prepare for NAPLAN, with a practice test completed for writing. Everyone, did a great job logging in and completing the required piece of writing.

So much in eight weeks and we are ready for the next term.
