

# Fantastic Fives

The Year 5 class have continued to work hard throughout the year. We currently have a 4th year teaching prac student, Mrs Rabjones, in our class. We have really enjoyed working on the class book, 'My Place.'

We have looked at Australia's history through the eyes of the residents of the same house. After having to write our own recipe, we cooked damper. We thoroughly enjoyed getting to pour golden syrup on it and eating it!

In Maths we are studying maps and coordinates. We are learning about the cardinal points of the compass, and being able to recognise and use grid references.
